

**Baynton West**  
PRIMARY SCHOOL

Dear Parents/Guardians,

This term the year two class have been designing robots as a part of our Measurement and Geometry unit. The final product will be a 3D robot that the students will build in weeks 9/10. As a part of this project, we would greatly appreciate it if you would be able to bring in some recycled scrap resources to use as building materials.

In particular, objects such as the following will be useful:

- Empty tissue boxes
- Empty toilet rolls
- Small cardboard boxes i.e. muesli bar, pasta and food boxes
- Plastic cups
- Empty egg cartons

A box will be positioned at the front of the room for all of these materials to be placed into.

I would also love some volunteers to help with the building process if any of you have a spare hour to come into the classroom. I will post a timetable on the door to with the times and days we will be building.

Thank you in advance for your help!

Regards,

Zoe Dinsdale

Year 2 Teacher, Baynton West Primary School
