

WHALE HELLO THERE from ECE3!

Whale, whale, whale... what do we have here?

ECE3 have been having a whale of a time, involving ourselves in learning experiences about whale sharks and other sea creatures. We have created shark peg puppets, collaged whale sharks and stuffed paper whale sharks. BEWARE the chalk outline on the concrete outside our classroom. We measured 12 metres (the average length of a whale shark) to draw an outline, then we found out how many Pre-Primary children equals one shark.

We have been having an over-whale-ming time learning together!
