

C5

Term 3

Term 3 is set to be an exciting term with the sports carnival and Book Week! Our class theme is 'Under the Sea' and students have been enjoying learning about sea creatures, creating acrostic poems on their favourite sea creature and decorating the classroom. In English we will be continuing the under water theme by writing under the sea narratives and informational reports on sea creatures.

STEM and English Integration

C5 students were given the challenge to create an escape for Jack from the Giant's castle. The Giant's castle was on their desk and Jack needed an escape to get to the floor! Students could use cardboard, tape, paper and string to create their escape routes. Groups created slides, a trap door with a rope and stairs and a tower with a firemans pole.

English – Procedures Language Experience

At the end of last term our English focus was procedures. C5 followed and created a range of procedures throughout the term, including making fairy bread, planting a bean seed and creating Chinese Lanterns (Deng Long) with our year 3 buddies. Come inside our room and read our Fairy Bread procedures! They are hanging up at the back of the classroom.
