

Year 5 Room 25

PBS Board Games

In C25 we have been doing activities about PBS behaviours. We have learnt about positive behaviours and how to be a role model for the younger students at Baynton West. Demonstrating positive behaviours helps to make us mature young adults who make good choices. Some of the activities have been challenging however, we have had lots of fun and learnt more about each other.

Miss Borlini gave us a challenging task that required us to utilise our knowledge of PBS. We were able to apply our knowledge of PBS from our very first day at Baynton West until now. Our task required us to create a board game that taught younger students about positive PBS behaviours. In our groups we discussed different types of board games and began planning. When we finished planning we trialled our games before making and decorating our good copy of our board games.

The best part of this task was being able to take our games to Miss Clarke's classroom. We played our games with the students in Year 2. All of the students loved playing our games.
