

## **Re: Mathletics is back!**

To Parents and Caregivers

This letter outlines the updates made to the homework requirements in Year 1. Homework requirements are sight words, nightly reading and Mathematics. Students have previously been completing a Mathematics game, sight word practise and reading with the recording of the book and signature in their reading logs.

Thanks to the generosity of the P&C, we have now been given access to Mathletics for students to use in class and use for homework.

Students have their log-in details glued into the front of their reading log book and differentiated tasks will be assigned each week for students to complete. Students will be given explicit instructions on how to log-in and use Mathletics.

Please be aware that if students do not have access to a computer or internet at home we will make other arrangements for them to be able to complete their Mathematics homework. If this is the case in your family please let your classroom teacher know by contacting the front office.

Thank you for your ongoing support.
