

Dear Parents/Caregivers,

We are currently focusing on mapping, continents of the world and planet Earth in our integrated STEM, English, Humanities and Social Sciences programs.

Please find attached ***a brief home project for the purpose of your child sharing information with their class, about the travelling your family has done together.*** If you have only travelled within Western Australia we are keen to know the details set out below. If you've been further afield in Australia or internationally, this will make for interesting discussions and we'll have fun plotting locations on our maps and globes in class.

This project will also be used to help monitor the children's oral language development, when the students speak to their class group about what they have discovered.

Please assist your child to record the relevant information and return the section below to your child's class teacher as soon as possible.

We are off to REAP next Friday on ***our exciting excursion.*** Please give the completed Health Form, Permission Form and payment to your class teacher as soon as possible.

Many thanks for your support of our learning this term.

Belinda Smith, Larissa McNaught, Alyse Greenhow, Julie Eardley, Courtney Williams,
